**Positions available: Home Visitor**

LSA Family Health Service, founded in 1958, is a nonprofit community based organization that works with the people of East Harlem to address the physical, emotional, educational, and spiritual dimensions of family health.

We are recruiting a Home Visitor. The main focus of the Home Visitor's work is to support parent-child relationships, ensure that children's health and safety needs are met, and monitor children's development. The Home Visitor works primarily in the home to model stimulating adult-child interactions through developmentally appropriate play and provide support and guidance to parents during the early years of their children's lives.

The Home Visitor must have a BA or AA degree in early childhood education or related field. **Or** BA or AA in another field with at least two years experience working with children, birth to five, and their families. Bilingual Spanish/English required.

If interested in applying, email or fax cover letter and resume to:

Heather Mitchell, Program Director  
LSA Family Health Service
